Exhibitor Introduction	Talent Microwave is a high-tech enterprise specializing in the research and development, microwave, millimeter wave and Terahertz components. Our products cover DC-750GHz, including power amplifiers, frequency multipliers, attenuators, coaxial switches, and other microwave millimeter wave terahertz devices, high-performance microwave millimeter wave cables, millimeter wave connectors, as well as system integration products such as frequency synthesizers, transceivers, switch matrices, power amplifier system products, terahertz testing instruments, etc.	
Exhibit Description	power amplifiers, low noise amplifier, frequency multipliers, attenuators, coaxial switches, and, high-performance microwave millimeter wave cables, millimeter wave connectors, as well as system integration products such as frequency synthesizers, transceivers, switch matrices, power amplifier system products, terahertz testing instruments, etc.
